// SUMMARY

Senior Software Developer & Solution Architect with over 10 years of experience designing enterprise applications on .NET and Node.js stacks. Specialized in distributed architectures, complex system integration, application modernization, and technical leadership. Experienced in leading teams, defining software architectures, and supporting enterprise clients in the insurance, financial, healthcare, and manufacturing sectors. Curious by nature and oriented toward continuous improvement, I enjoy tackling complex problems and turning them into simple, reliable, maintainable solutions.

// EXPERIENCE

Senior Full Stack Developer & Solution Architect @ Freelance 01/2026 - Present

Custom web and desktop application development with maintainable architectures.
Teaching SQL and relational databases at EnaipFVG.

Activities:

- *Custom web and desktop applications in .NET ecosystem
- *Teaching SQL and relational databases at EnaipFVG

.NET | SQL | PostgreSQL | SQLite |

Senior Software Developer @ Etiqa Srl 09/2022 - 01/2026

Hired as Senior Developer for the development of new virtual Healthcare platforms (elty.it) and corporate welfare (Welbee) based on NestJS microservices architecture.

Activities:

- *Designed Algolia integration for healthcare service search
- *Automated CI/CD pipeline with GitHub Actions and Kubernetes cluster deployment
- *Defined transactional strategies to manage a virtual monetary portfolio
- *Introduced end-to-end and stress testing on production replica environment

Achievements:

- *Identified the cause of a critical scalability issue between NestJS microservices in Kubernetes
- *Resolved instability on load peaks with 1000+ requests per minute
- *Reduced loading times on PostgreSQL view-based reports by up to 90%

Node.js | NestJS | PostgreSQL | MongoDB | Docker | Kubernetes | GitHub Actions |
Kafka | GraphQL | Google Cloud Platform (GCP) | Aws | Microservices | TypeScript |
Vue | TailwindCSS | Cypress | Playwright | Artillery | k6 | SonarQube | NATS |

Tech Leader @ Gruppo Euris S.P.A.

09/2019 - 09/2022

Team leader for international project supporting ABB Italy for maintenance, creation and migration of internal applications.

Activities:

- *Migrated project from MS Access + SharePoint Online to .NET, SQL Server and Angular
- *Coordinated 4-8 person team and mentored junior developers from onboarding to full autonomy
- *Maintained 50+ applications, managing incidents, change requests and complete maintenance including requirements analysis
- *Managed international stakeholders across Italy, Poland, Finland, China
- *Improved project and team management processes with Agile methodologies

Achievements:

- *450+ person-days project completed with full client satisfaction
- *Designed and delivered 15+ web applications in .NET ecosystem
- *Migrated 20+ custom SharePoint applications from 2010/2014 to SharePoint Online
- *Optimized IIS configurations for plants in China and Americas: reducing loading times from 3000ms to 200ms

.NET | Angular | React | TypeScript | C# | Azure | SharePoint | TFS/Azure Devops |
Bash | REST API | WebSockets | Entity Framework | MS SQL Server | Snowflake |
Apache ECharts | Apache Spark | Kendo UI | Nintex Workflow | ServiceNow |

Junior & Senior Software Developer @ Gruppo Euris S.P.A. 05/2014 - 09/2019

Development and maintenance of enterprise applications on Microsoft ecosystem.

Activities:

- *Managed Banca Generali Risk Management Data Warehouse with 500+ stored procedures and ~2GB/day growth
- *Developed .NET plugin for MicroStation 3D CAD for naval cable management for Fincantieri
- *Integrated asynchronous messaging with RabbitMQ to connect different services of HeraAcegasApsAmga

.NET Framework | Razor | Javascript | REST API | CSS3 | SVN | AngularJS | Jest |
NUnit | xUnit | MS SQL Server | Entity Framework | Git | MicroStation | RabbitMQ |

// OTHER ACTIVITIES

Co-founder, Podcaster & Audio Engineer @ Oggi fa bora 03/2025 - Present

When I'm not coding, I co-host, record and edit a podcast about Trieste. Besides lending my voice, I handle the recording, editing, and publishing of episodes.

oggifabora.it

Vice President @ Azione Cattolica Trieste

02/2017 - 02/2024

Elected vice president of the Youth Sector for two consecutive terms. Sat on the Council and Presidency. Organized social and cultural activities for young people.
